EDUCATION

Dr D.Y Patil Dnyaan Prasad Global University, Pimpri Chinchwad (2025 – 2028)
B.Tech, Computer Science & Engineering | CGPA: 8.72
Saraswati Institute of Technology, Kharghar (2022 – 2025)
Diploma in Computer Engineering | 92.63%

SKILLS

- **Languages:** Java, Python
- **Backend:** Spring Boot, Hibernate, REST APIs, WebSockets
- **Frontend:** HTML, CSS, Responsive Web Design
- **Databases:** PostgreSQL, MySQL
- **Machine Learning:** Linear Regression, Logistic Regression, Decision Trees, KNN, Naive Bayes, Random Forest, XGBoost, DBSCAN
- **Tools & Platforms:** Git, GitHub, Maven, Postman, Railway, Cloudflare Pages, k6

EXPERIENCE

AI/ML Engineer Intern — DevTech IT Solution Pvt. Ltd. **October 2026 – Present**

- Performed data preprocessing, exploratory data analysis and feature engineering across datasets containing **1,300+ records**, applying encoding, scaling and statistical feature selection techniques.
- Implemented and evaluated four machine learning classification algorithms, achieving an accuracy of up to **80.34%**, and engineered a Linear Regression model yielding an adjusted R^2 of approximately **81.87%**.

Co-Founder — Bloom Agency **September 2026 – Present**

- Co-founded a web development agency building custom, scalable websites and digital solutions for businesses.
- Managed client requirements, responsive website development, **domain configuration**, deployment, and SEO.

Web Developer Intern — Salience Foundation **March 2026 – June 2026**

- Contributed to the development of the company's new website by building responsive web pages and integrating **REST APIs** to deliver dynamic content across 10+ pages.
- Debugged frontend-backend integration, API communication, and cross-device compatibility issues, improving application reliability.

PROJECTS

Drill Insight — Oil Well Intelligence System / *React, FastAPI, PostgreSQL, XGBoost* / GitHub

- Analyzed **203 wells and 3,300+ drilling events** using PostgreSQL, building analytical views for historical trends, well comparisons, geospatial relationships, and **operational risk assessment**.
- Developed an **XGBoost-based recommendation model** using geological, reservoir, historical drilling, and offset-well features to rank candidate well locations for data-driven drilling decisions.

GeoWatch / *Spring Boot, PostgreSQL, WebSockets, DBSCAN, Leaflet* / GitHub ,Demo

- Built a real-time crowd safety platform that analyzes live GPS incident reports and uses **DBSCAN-based geospatial clustering** with a custom grid-based spatial index to identify high-risk zones, achieving **0.92 ms** clustering execution under benchmark load.
- Engineered a scalable event processing and WebSocket broadcasting pipeline supporting **500+ concurrent clients**; benchmarked using k6, processing **88,000+ REST requests** at **732.99 req/sec** under **250 users**.

GitGo / *TypeScript, VS Code Extension API* / GitHub Marketplace

- Developed a **VS Code Extension** that automates coding problem publication workflows, consolidating folder creation, README generation, screenshot management, and Git operations into a **single-command pipeline**.
- Architected a modular transactional architecture with **automatic rollback** and repository analytics, enabling scans of **10,000+ problem folders** in under 2.3 seconds.

EXTRACURRICULAR ACTIVITIES

- Solved **200+ problems** on LeetCode.
- Received the **Best Website award** at WebCraft Carnival 2026.
- Co-founded RuntimeSync, a GitHub organization for collaborative development and repository management.
- Technical Co Lead at Kryptonex Tech & Innovation Club, organizing tech events for 100+ participants.

CERTIFICATIONS

- Oracle Cloud Infrastructure Foundations Associate (2025) Credential
- Google Agentic AI — Google x Kaggle (2025) Credential
